- DBMS

PROJECTS

CineSearch | [HTML](#), [CSS](#), [JavaScript](#)

2024

- CineSearch is a user-friendly platform that provides instant movie details based on user input.
- It offers comprehensive information, including plot summaries, cast, ratings, and release dates.
- The platform enhances movie discovery by making it easy to explore films from all genres.

Digital Neighborhood Watch | [HTML](#), [CSS](#), [JavaScript](#)

2024

- Digital Neighborhood is a collaborative platform that connects users within a virtual community, promoting local engagement and support.
- It features Report Incident, Community Feed, Lost-Found and safety feed to foster active participation.

Salesforce UI | [HTML](#), [CSS](#)

2024

- Designed a visually appealing Salesforce UI with clean, responsive layouts using HTML and CSS.
- Implemented interactive elements to enhance user experience across two web pages.
- Ensured cross-browser compatibility and mobile responsiveness for a seamless experience.

TO-DO-LIST | [HTML](#), [CSS](#), [JavaScript](#)

2024

- The project allows users to create, update, and delete tasks dynamically using JavaScript.
- HTML is used to structure the task list, input fields, and buttons for task management.
- CSS styles the interface, ensuring a clean, user-friendly design with responsive layouts.
